

JOSHUA BRANDON SYDES

Born: July 25, 1992

“Until philosophers are kings, or the kings and princes of this world have the spirit and power of philosophy, and political greatness and wisdom meet in one, and those commoner natures who pursue either to the exclusion of the other are compelled to stand aside, cities will never have rest from their evils.” – Plato, The Republic, 4th century B.C.

It is like a universal name and is applicable to everyone. "Let there be light."
